Ancillary Marketing Materials

The MasterTech™ Theft Deterrent Program protects you from a potential financial loss due to vehicle theft by providing a benefit that can be applied towards purchasing a new vehicle. This program includes anti-theft markings applied to certain vehicle components.

Coverage Options

- Primary \$2,500 Benefit**
In the event that your vehicle is stolen and not recovered within 30 days or is returned and declared a total loss, there will be a \$2,500 benefit paid out to the beneficiary under plan or \$2,500 replacement allowance towards the purchase of a replacement vehicle from the leasing fleet.
- Ultra \$5,000 Benefit**
In the event that your vehicle is stolen and not recovered within 30 days or is returned and declared a total loss, there will be a \$5,000 benefit paid out to the beneficiary under plan or \$5,000 replacement allowance towards the purchase of a replacement vehicle from the leasing fleet.

Additional Benefits

- Proprietary Vehicle Identification and Markings**
The MasterTech™ Theft Deterrent Program uses molecular bonding and, unlike other chemicals that sit on top of the surface, the formula adheres to treated surfaces to provide superior protection. To ensure top quality and effectiveness, the chemical is put through rigorous testing using an independent, third-party laboratory. To view test results, visit www.MasterTechPP.com.
- Environmentally Friendly**
- Contains zero VOC**

Theft Deterrent Desk Mat

The MasterTech™ Windshield Protection Program assists in the prevention of windshield damage from gravel, rock chips, and flying debris. With this program, you will be covered for minor chips or crack repairs, and windshield replacement or reinforcement when the damage is not repairable.

Coverage Options

- Primary Repair**
The Primary level of coverage includes one (1) product application to the windshield that will assist in the prevention of minor chips or crack damage. If it is determined by a third-party repairer that the damage is repairable, it will be repaired with a permanent repair. The repair will be covered up to the fourth repair. (Limit: 100% replacement is provided.)
- Premium Repair + Replacement**
The Premium level of coverage includes one (1) product application to the windshield that will assist in the prevention of minor chips or crack damage. If it is determined by a third-party repairer that the damage is repairable, it will be repaired with a permanent repair. If it is determined that the damage is not repairable, it will be replaced with a new windshield. (Limit: 100% replacement is provided.)
- Ultra Repair + Windshield Reinforcement Replacement**
The Ultra level of coverage includes one (1) product application to the windshield that will assist in the prevention of minor chips or crack damage. If it is determined by a third-party repairer that the damage is repairable, it will be repaired with a permanent repair. If it is determined that the damage is not repairable, it will be replaced with a new windshield. (Limit: 100% replacement is provided.)

Protect Your Investment

- 100% Transparency**
The MasterTech™ Windshield Protection Program is a 100% transparent program. The chemical products are EPA approved, VOC free, and safe for humans and pets.
- Full-Flow Glass Damage**
The MasterTech™ Windshield Protection Program is a full-flow product that covers the entire windshield.

Windshield Protection Desk Mat

The MasterTech™ Environmental Protection Program protects your vehicle from environmental elements and unforeseen interior damages that can happen throughout your vehicle ownership.

Chemical Product Information

The proprietary chemical used with the MasterTech™ Environmental Protection Program uses molecular bonding and, unlike other chemicals that sit on top of the surface, the formula adheres to treated surfaces to provide superior protection. To ensure top quality and effectiveness, the chemical is put through rigorous testing using an independent, third-party laboratory. To view test results, visit www.MasterTechPP.com.

The proprietary chemical is:

- Environmentally friendly
- Contains zero VOC

The MasterTech™ Environmental Protection Program is not considered insurance and does not take the place of insurance on the covered vehicle. We are responsible for providing coverage to the leasing contract or applicable state law.

Certain conditions and components are excluded such as windshield cracks or chips greater than 2", interior painted surfaces, damage caused by road debris or third-party entities, areas that are not included, sagging, staining, or conditions which occurred prior to the purchase of your vehicle. Please refer to the MasterTech™ Environmental Protection Program Leasing Contract for complete details, exclusions, and limitations of the program.

Environmental Protection Desk Mat

The MasterTech™ Environmental Protection Program sanitizes and protects your vehicle from environmental elements and unforeseen interior damages that can happen throughout your vehicle ownership.

Interior Chemical Product Information

Safe to use products are applied to all hard and soft interior surfaces of your vehicle and will protect against stains and spills while also preventing harmful virus pathogens from adhering to treated surfaces. The chemical products are EPA approved, VOC free, and safe for humans and pets.

The antimicrobial agent eliminates 99.9% of:

- harmful bacteria
- mold and mildew
- germs
- viruses and Coronaviruses, such as COVID-19

Exterior Chemical Product Information

The proprietary chemical uses molecular bonding and, unlike other chemicals that sit on top of the surface, the formula adheres to treated surfaces to provide superior protection. The exterior chemical is VOC free.

The MasterTech™ Environmental Protection Program is not considered insurance on the covered vehicle. You are responsible for insurance on the vehicle.

Certain conditions and components are excluded such as windshield cracks or chips greater than 2", interior painted surfaces, damage caused by road debris or third-party entities, areas that are not included, sagging, staining, or conditions which occurred prior to the purchase of your vehicle. Please refer to the MasterTech™ Environmental Protection Program Leasing Contract for complete details, exclusions, and limitations of the program.

Conditions will be covered with the best available method of cleaning, maintenance, repair or replacement of the damaged surface subject to the limitations and exclusions of your Leasing Contract.

Reimbursement of up to \$200 if windshield must be replaced. No windshield coverage is available under this limited warranty for residents of Massachusetts, Florida, Arkansas, New York, and South Carolina.

MasterTech™ EPA# 2202-1-0806, SouthCarolina EPA# 2202-3-0508

The coverage included in this program are limited warranty benefits from F. Coatings, Inc. 2022 dates 01/01/22 to 12/31/22. © 2022.
